- Hindi (Fluent)

PROFILE

Currently pursuing my CSIT 6th semester at Tribhuvan University, an aspiring React developer with a strong passion for frontend development. Over the course of my studies, I have a good foundation in programming, web development, and design principles. Looking for an internship to put my academic knowledge to use and get real-world experience. I am eager to pursue my frontend development career further and develop my talents in a fast-paced team atmosphere.

PROJECTS

Hotel Management System (Admin panel)
Tech used: ReactJs, Tailwind CSS, Supabase

- Fetched and displayed hotel data dynamically using APIs and designed interfaces for booking details, including check-in/check-out processes.
- Integrated React Router for seamless navigation
- Live preview: https://bush-resort.netlify.app/login
- Dummy Credentials: Email: prajwal@admin.com, pw: example123

The Quiz App
Tech used: ReactJs, Context API

- Managed application state effectively using React's built in state management
- Designed user interface for quiz questions andfeedback using React component
- Live preview: https://quiz-app-advanced.netlify.app/

Fabrico (E-commerce website)
Tech used: NextJs, Tailwind CSS, MongoDB

- Integrated payment gateways for secure online transactions
- Implemented navigation using built-in NextJS router. (folder hierarchy)
